OBJECTIVE

I am a motivated Computer Engineering student interested in system development, programming, networking, and emerging technologies. I enjoy applying my technical knowledge and problem-solving skills to build practical, reliable solutions.

I seek hands-on experience to build my skills and contribute to real-world projects. I am adaptable, detail-oriented, eager to learn, and able to work independently or as part of a team.

EDUCATION

Cagayan State University - Carig Campus
Bachelor of Science in Computer Engineering
Expected 2027

- Relevant Courses: Machine Learning, Web Development, Software Engineering, Project Management, Web Security, Computer Networks, Circuit Design

PROJECTS

- SMART-TMS: AI-Based Traffic Management System with Dynamic Control via Computer Vision
- SCARF: Smart Classroom Automated and Reliable Fan
- Custom Regulated Power Supply
- Dental Clinic Appointment and Record Management System
- Custom PIC Development Board

SOFT SKILLS

- Adaptability
- Time Management
- Teamwork and Collaboration
- Problem Solving
- Active Listening

CERTIFICATIONS AND SEMINARS

- Frontiers of Computer Engineering: 2025 International Conference on New and Emerging Technologies

TECHNICAL SKILLS

Programming: Python, C/C++, Basic Java, HTML, CSS
Embedded Systems: ESP32, Arduino, Raspberry, PIC
AI & Computer Vision: YOLO, Computer Vision, Image Processing, Object Detection
Hardware & Electronics: Circuit Design, PCB Design, Sensors, IoT

ADDITIONAL INFORMATION

Interest: Technology, Programming, Embedded Systems, Artificial Intelligence, Computer Vision, and System Development
